

Why Christians must act on environmental issues:

"To hurt the Earth is a sin" (Patriarch Bartholomew). We must "respond to the cry of the Earth and the cry of the poor" (Pope Francis). "We should care for God's creation out of love" (Revd Nicky Gumbel). "All our decisions – personal, purchasing and political – have to be greener for a healthier world. Let the Earth flourish" (Bishop James Jones).

What to do next:

The dire state of God's creation can make us wonder "what on earth can I do?" But living in a way that respects what God has made is part of our joyful discipleship and, by inspiring others to join us, we can begin to change the world.

This leaflet offers nine ways to live more gently on the Earth. Why not share these ideas by putting the centre pages of this leaflet on your church noticeboard, or on your fridge at home?

Find out more about your personal contribution to climate change by estimating your carbon footprint, using an online carbon calculator such as climatestewards.org/carbon-calculators/ or one from Mike Berners-Lee at Small World Consulting: sw-consulting.co.uk/carbon-calculator For a different approach try giki.earth/about The Climate Stewards website also links to a carbon calculator for your church at 360carbon.org/ Off-setting should only be used to compensate for unavoidable carbon emissions. Our challenge is to move to as close to zero as soon as possible if God's creation is to flourish.

"I have come that you may have life in all its fullness."

John 10:10

Green Christian

About: We are a community of ordinary Christians from all backgrounds and traditions. Inspired by our faith, we care for creation through prayer, action and encouragement. We walk alongside those of faith and no faith.

We welcome new members. Join us!

greenchristian.org.uk/join-us

Events: Conferences, courses, retreats and workshops – online and in person.

Projects: Borrowed Time (response to climate crisis); Joy In Enough (green economics); Food; Way of Life Community; Rainforest Fund.

Resources: Annual brochure, twice yearly magazine, monthly *Prayer Guide*, free email newsletter for all, members' email discussion group. Leaflets for use in church: Seven Rs: Respecting Creation, Food: Use Your LOAF! Nine Ways of Living Gently, Nature: God loves all things.

Visit greenchristian.org.uk/resources for prayers, poems, hymns, news of workshops and courses, posters and videos to inspire you and your church.

Nine Ways of Living Gently

GreenChristian
Responding to the Cry of the Earth

Nine ways of living gently on the Earth:-

1. Stand up for the planet:

- Get to know your MP
- Write letters, sign an online petition
- Protest.

2. Get connected:

- Seek out like-minded people for mutual support and encouragement
- Join and support community groups
- Take part in one of Green Christian's many online meetings.

3. Practise gratitude and generosity:

- Take joy in simple pleasures rather than more possessions.

4. Be creative:

- Reinvent second-hand goods from charity shops
- Improvise, make things
- Try swishing – clothes swap!

5. Reconnect with the natural world:

- Get wet – dig the earth
- Grow herbs on your window sill
- Save and cherish water
- Take an interest in wildflowers, bees, butterflies, fish, birds and rocks
- Include the Earth in all church liturgies
- Plant trees for special occasions such as weddings and baptisms.

Ordinary Christians,
Extraordinary Times
greenchristian.org.uk

6. Use your LOAF!

- Support local shops
- Try to buy British fruit and veg in season
- Grow some of your own food
- Eat less meat and dairy
- Buy free-range eggs and meat and sustainably-caught fish (MSC)
- Suggest communal church meals based on the LOAF principles:
Locally produced
Organically grown
Animal friendly
Fairly traded.

7. Travel light:

- Walk, cycle, take the bus, tram or train, use local shops, noticing the beauty of nature
- Organise a lift share scheme for your church
- Don't fly: a transatlantic passenger blows your annual fair share of carbon in one go. If you must fly, offset with climatestewards.org
- Most European travel is possible by train: seat61.com for more information.

8. Explore this island:

- Get in touch with the seasons
- Seek out local adventures
- Enjoy the journey and limit your driving.

9. Go fossil-free and low energy:

- Change to a renewable electricity provider
- Switch to fossil-free banking, savings and pensions
- Campaign for your university, council or church to divest
- Insulate your home
- Wear extra layers, and turn down the heating
- Use hot water bottles
- If buying new appliances go for AAA rated
- Switch to electric heating
- Generate your own electricity.
